## 212 Happy Campers

We often hear our campers say that although they have attended other camps in the past, they prefer coming to CAB. What is it that keeps them wanting to come back? Well I think we can sum it up in three words.

UPWARD, INWARD, OUTWARD!

Those three words describe very well the experience all of our campers enjoy. A week at CAB allows everyone to express their **upward** worship to God, experience the **inward** working of God, as well as share **outward** the love that God has deposited in their hearts. True community! That's what we were created for, and that's why all of our campers leave feeling like their experience was a very fulfilling one. Our thanks go out to a great staff without whom none of this would have been possible, and of course to all of our campers this past summer, you guys were truly awesome. Why not take some time to consider who you could invite next summer so that even more people can experience what it means to truly be a "**Happy Camper**". Have a great Christmas everyone and please mark your calendars because the countdown to summer 2017 has already begun!

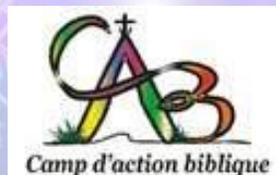

## Can You Help?

With a growing number of campers each year, we realize that additional housing for some of our staff is becoming a pressing need. We are currently looking for two trailers that are in good condition. If you have one that you would like to donate or sell at a **great price**, please contact us. We promise to give them a good home in the spring!

## A Blessing in Disguise

After a violent wind storm destroyed a couple of our canvas canopies and fell a number of trees, we were truly blessed to have a team of volunteers come in and build us a brand new outdoor gazebo (see picture below). Many thanks to Patrick Hamel and friends for the excellent work they did. Thanks to them, plans are already in the works for an even bigger one next year. Bring on the wind and rain!
